

05/26/2017

To whomever this may concern,

It is my pleasure to recommend Thet Paing Zaw, who I taught in my Algebra. Throughout the school year, Thet displayed a great growth and effort, and he brought energy to the class that made learning more enjoyable for all and one of my top student. His optimism is rare in a high school student but is very essential to the learning process. I am confident that he will continue to demonstrate the same qualities in everything he does.

Thet asked questions both in and out of class, and his hard work resulted in higher grades for not only him but for others as well. He was always helping his classmates better understand the concepts by answering questions in class and explaining course material to those who sat near him. Thet's strong work ethic and collaborative mindset greatly contributed to the classroom, helping all student feel supported and able to ask questions.

While he was not initially confident in math, Thet benefited tremendously from his outstanding effort, putting in the time and effort to succeed with one of the highest grades in the class. His improvement was so dramatic that it is extremely fulfilling to witness a student make this kind of academic progress.

Thet is a reliable, hardworking, and energetic student who supports others in any way he can. It was a pleasure to have him in my class, and his positive attitude, even in times of difficulty, is immensely admirable. I am sure that he will continue to show the same perseverance, diligence, and optimism that he demonstrated to myself and his classmates.

I am highly confident that whatever the matter may be, Thet is the kind of person you won't surely regret selecting. Please feel free to contact me with any further questions at [sthanay.ilbc@gmail.com](mailto:sthanay.ilbc@gmail.com)

Sincerely,

Su Than Tay
